ABOUT

I am a recent Bachelor of Computer Applications (BCA) graduate with a strong foundation in computer science and a passion for software development. During my academic journey, I have gained hands-on experience in programming languages such as Java, C++, and Python, as well as web development technologies including HTML, CSS, and JavaScript. My coursework has equipped me with a solid understanding of database management, data structures, algorithms, and software engineering principles.

INTERNSHIPS

Full-Stack Developer Intern

Rabbitsquare

May 2024-Jul 2024

- Contributed to the development of the Nirmala Civil Service Academy website, a comprehensive platform integrating a public-facing website, student management system, and result management system.
- Led the design, coding, testing, and optimization of key components, ensuring seamless integration and high performance.
- Utilized programming languages such as HTML, CSS, JavaScript, PHP, and MySQL to deliver responsive and user-friendly applications.
- Collaborated with cross-functional teams to gather requirements and implement features, improving user experience and functionality.
- Conducted thorough testing and debugging to enhance security and performance, ensuring compliance with best practices in web development.

PROJECTS

WorkerBay - Jobportal Website

Oct 2024

- Developed a user-friendly job portal connecting job seekers with employers.
- Implemented features for job search filters, application tracking, and profile management.
- Built a secure backend system using PHP and MySQL for efficient data management.
- Integrated advanced search functionality for filtering job listings by location, industry, and type.
